Subject: RE: You should be ashamed

Dear Mr. R [REDACTED]

At the time the Liberty was attacked, I was working for the Air Force component of NASH. After my discharge, I worked for the agency directly at Ft. Meade. I saw the internal report on the attack, as did most agency employees. That report conclusively established that the attack was deliberate. If you were a cryptologist, then you know that NSA reports are unique among the major intelligence agencies in that they are uniformly objective and unbiased.
